

This puzzle deals with famous firsts in the motion picture business. The clues on the left will give you the names of fifteen different films, in no particular order. Enter the film names on the right, one letter per box. Colored lines connect boxes that contain the same letter. Two different lines of the same color don't necessarily correspond to the same letter, unless they connect.

- First film to show a flushing toilet.
- First non-english film to win Oscar for Best Picture.
- First film to use the Wilhelm scream.
- First feature-length movie with 2D CGI.
- First feature-length fully computer animated film.
- First feature-length film with synchronized sound.
- First film to gross \$1 Billion.
- First kiss on film.
- First film combining animation with live action.
- First zombie film.
- First PG-13 film.
- First film to win Oscar for best picture.
- First feature-length film with 3D CGI.
- First film to show a cellphone on screen.
- First film released on DVD.

Once you have completed the puzzle, read the highlighted letters to arrive at an answer that might describe you.

Solve the puzzles in this month's contest and win a prize.
